Feel Your Nature

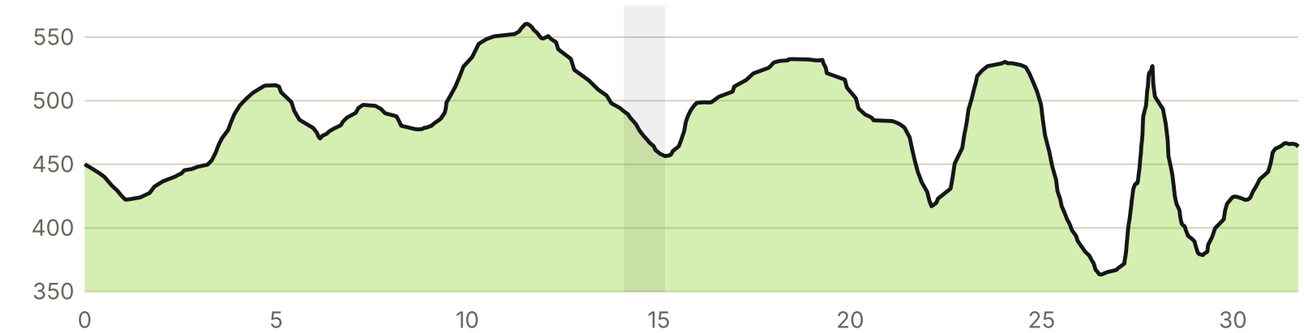
La THArée GIGA

32 km · 700 m ascent · ± 9h · hard walk from the brewery

THE ROUTE

Our longest route, for a full day's walk. It combines the wooded heights to the north towards Salmchâteau, the Ronce valley and the large forest to the south, as far as Honvelez and Bovigny. The way back follows a fainter path and the wooden footbridge over the Ronce. A fine tour of the High Ardennes around the brewery.

ELEVATION PROFILE



Altitude in metres, distance in kilometres. Grey area: faint path, follow the route closely.

GOOD TO KNOW

- Walking boots recommended, some sections can be muddy after rain.
- Bring water, there is nowhere to refill along the way.
- Stay on the paths, keep your dog on a lead and take your litter home.
- A full day's walk: set off early with plenty to eat and drink.

Hunting season
From October to January, some paths may be closed during hunts. Check **chasseonweb.be** before you set off and follow the signs on site.

AND AFTER YOUR WALK?

After the trails, come and see us. The brewery is open all day on Saturdays, and often during the week too (give us a quick call before you come, just to be sure). Bar, terrace, sharing boards and croques THArés (toasted sandwiches with our own cheese and sausage), with our organic beers brewed right here.

On booking, there is also the burger THAré and our backpack Lunch Box for a picnic along the way. And in our little shop, you can take a piece of the High Ardennes home with you.

FANCY A GUIDE?

Our THAré nature guides know these trails inside out. With the family or in a sportier version, the walk ends with a brewery tour and a tasting. On booking, in English, French or Dutch.
